

## BASH Performing Arts Tour 2023 Travelers-

I have received a number of questions regarding travel insurance that I would like to clarify to the best of my ability.

The travel insurance that is included with the trip is the Travelex Group 360 Premier. The travel company representative emphasized that this policy is a **during travel only policy**. It does not cover cancellation or trip interruption. The primary purpose of the travel insurance policy is to obtain the \$50,000 in emergency medical coverage overseas for each student.

If there are concerns about medical coverage for emergencies arising from a known pre-existing condition, cancellation for a covered emergency reason, interruption benefits, etc. it is recommended to explore optional policies and refer to the terms and conditions of those policies. Johanna Green at Mayfair Travel (<https://www.mayfairtravel.com/>) has been helpful with this information, and would be happy to answer any additional questions. She had mentioned that the [Allianz Classic Plan](#) is a good policy to explore. Oftentimes policies of this variety need to be purchased within 14 days of initial payment.

In addition to this, we understand that the Covid world of international travel presents many "what if" scenarios that are challenging to answer. There are currently no restrictions on travel between the US and the UK. If something were to change where flights were to be canceled, or US travelers were no longer allowed to visit the UK, we feel confident that the 30+ year relationship that we have with Music and Travel would create a situation where we would be treated fairly.
